Work experience

Position	Systems Development Specialist, from July 2020
Employer	Banc ABC in Harare
Main activities and responsibilities	My assignment is to drive digital transformation process of the bank through the use of technology. Carried digital transformation projects which include automation of the bank's reconciliations, creation of Value Added Services through integrations with the core banking system, creation of a reliable and robust sms gateway used by all internal systems of the bank, integrations to VISA, integration to mobile money systems and maintenance of the bank ussd channel(*243#). All projects are delivered using Spring Framework, Oracle Database, Mysql Server, Sql Server and JMS
Position	Software Engineer, from February 2018 to June 2020
Employer	Cassava Smartech in Harare
Main activities and responsibilities	Executed various income generating projects for the Fintech Group. I was responsible for integrations on the Cassava Payment Gateway. My main role was to integrate service providers (Nyaradzo, Fidelity Life Assurance and others) to the payment gateway so that they receive bill payments in their mobile money wallets. I was also responsible for integrating all ecocash merchants with postilion so that they receive payments on Point of Sale machines. I was part of the team that introduced mobile money burea de change system(*150#). All projects were delivered using Spring Framework, and Mysql Databases,
Position	Java Developer, from April 2016 to January 2018
Employer	OK Zimbabwe in Harare
Main activities and responsibilities	I was delegated to work for OK Zimbabwe in IT Department. My responsibilities were creating POS System that is now being used OK stores. This project was done using Java FX ,J2EE and SQL database.
Position	Systems Developer, from January 2015 to March 2016
Employer	HITRAC in Harare
Main activities and responsibilities	I was part of the team that developed a number of triumphant ZHRIS projects ,developing and implementing distributed HR systems for the Ministry of Health and Child Welfare , a highly configurable and adaptable registration and licensing application for health regulatory bodies such as NCZ , MDPCZ and HPA, Integration of disparate health systems including client registry, provider registry, facility registry, terminology service, and patient shared health records in Zimbabwe.
