

## NGONI MUGANDANI

### Executive Summary:

I am a motivated software developer who loves providing business solutions that are unique. My goal is to work on as many solutions as I can regardless of location. I believe learning is a continuous process and I am always keen on learning new concepts and frameworks. I am proficient in web application development, desktop application development and Web API development using python and java. I have very good communication skills and can easily blend into a team without a lot of challenges. I am able to adapt to fast changing technical environments and technologies.
